Mastering the ABCs is well and good but having seen 29 years of children enter primary school through her doors, Mrs Marjorie Seck of CHIJ Katong Primary observes that these six soft skills are even more essential in preparing students for primary school.

Entering Primary 1 can be a big step for a child — and the parents. While parents often consider

# SOME QUESTIONS YOU MAY HAVE...

© Ministry of Education, Singapore. All Rights Reserved.

Reading is a habit that we can build.

## Interest your child in reading

- It is never too late to start getting your child interested in books
- Take your child to the library, expose them to various picture books and read together for a start
- Students will be introduced to various genres of books, and be taught how to blend letter sounds through games or craft work

You can encourage your child for any effort in learning to read. Most importantly, reading should be a fun learning process.

# SOME QUESTIONS YOU MAY HAVE...

**My child takes so long to complete her work. Will she fall behind?**

© Ministry of Education, Singapore. All Rights Reserved.

Children pick up time management at a different pace and can improve with help.

## Support your child in time management

- Parents can model this with your child at home with small tasks and everyday activities
- If you find your child struggling with completing their tasks or homework within a given time, it could also mean that they are not sure how to go about completing them
- If you notice any learning issues, do reach out to the school early

**Be specific about how much time they should spend on the work, and what time they should complete the work.**

# SOME QUESTIONS YOU MAY HAVE...

Asking for help may not seem obvious to a child.

## Teach your child how to ask for help

- Here are some steps you may teach your child:
  - **Step 1:** Look for someone who can help
  - **Step 2:** Check if that person has the time to help; if not, look for another suitable person
  - **Step 3:** Share what the problem is and how they feel
  - **Step 4:** Listen carefully to the advice given
  - **Step 5:** Thank the person for the help

Practise with your child at home how to ask for help. Remember to praise them for their efforts.

# SOME QUESTIONS YOU MAY HAVE...

Students may enjoy recess so much that they forget to eat. Some students may not be eating because they are shy about ordering food.

## Encourage your child to eat during recess

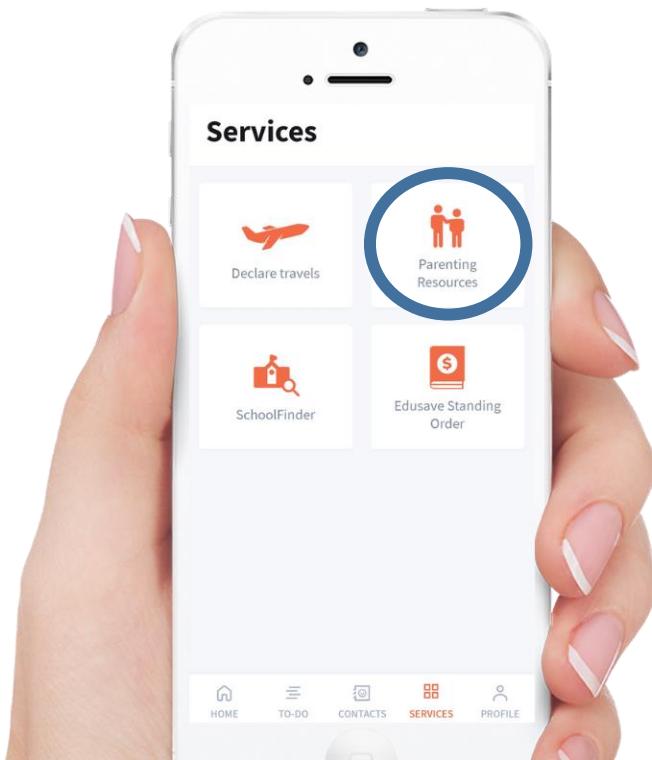

- Let your child practise ordering food and making payment when out with the family
- If they need more time to build their confidence or observe how it is done by other students, you may pack a lunch box in the meantime, so they will always have something to eat
- If you worry that your child is not eating at all, discuss with your child's teacher

**Remind your child that eating during recess is important as it helps them learn better in class.**
